## An emerald set in bronze

St Helena is small yet beautiful. It is an island of contrasts, from wind eroded desert with multi coloured ridges and valleys, to emerald hillsides, soft pastures and lush vegetation

## Leisure activities

The island is ten and a half miles long and 6 and a half miles wide is blessed with a pleasant climate with temperatures ranging between 14°C to 32°C in summer and 14°C to 26°C in winter.

filled valleys. It has a magnificent bronze surrounding coastline with 1000 feet high cliffs that have been carved over the centuries by the pounding Atlantic rollers. This ancient volcanic island is set in the tropical South Atlantic 1500 miles north-west of Cape Town. There is no airport and the island can only be reached by ship. St Helena became a British dependency in 1834 and still retains its 19th century values and is imbued with some 300 years of colonial history; manifested in the architecture and ambience of Jamestown.

### **A Georgian seaport**

Protected by 18th century fortifications is Jamestown the island's capital, a Georgian seaport which is abundantly endowed with a living heritage from its early days. The town nestles in a deep narrow valley, is the seat of Government and houses the museum, hotels and shops. The way out of Jamestown by road is by one of two routes (Side Path and Ladder Hill) each cut into steep hillsides. For the more adventurous, there is Jacob Ladder with its 699 steps embedded into the steep cliff face, rising from the valley floor to the top of Ladder Hill.

### **The Discovery**

Discovered 21 May 1502 by Portuguese admiral Jo o da Nova on his return voyage from India, the anniversary of Saint Helena mother of Emperor Constantine. The island soon became a haven for sea travellers because of its luxuriant vegetation, equable climate and wealth of fruit trees. Ships would drop off those suffering from scurvy so that they could benefit from the citrus fruits and then be picked up by another ship after recovery. The Saints, as the islanders are affectionately known, have their own special charm, having descended from British settlers

his death in 1821, and the residence is now a museum owned by the French Government.

### **Stamps**

St Helena began issuing stamps in 1856. The discovery issue was released in May 1997 and is the first of a five part series which will be released in May every year until 2002 - the 500th anniversary of the discovery of St Helena.
